MEMORANDUM FOR THE RECORD

SUBJECT: Concurrence in Amendment No. 10 to Contract No. AF33(600)-37821 (SC-991) wit[redacted]roject IDEALIST and Air Force

25X1A

1. This memorandum contains a recommendation submitted for concurrence of the undersigned. Such recommendation is contained in Paragraph 5.

2. Contract No. SC-991 provides for the services of necessary personnel to assist in installation, training of Government personnel, operation, service and repairs to equipments previously delivered to the Project and FOG under Contract No. SC-990. Amendment No. 10 to the contract has been drawn to add OSI to the contract as Customer No. 3 and to obligate OSI funds for the modification of six (6) D-Racks.

3. Amendment No. 10 to the contract obligates an amount of [redacted] chargeable to the Office of Scientific Intelligence Account 1154-1010-6000 (MOR #42). By concurrence to this memorandum the Comptroller signifies that funds have been obligated as set forth above.

25X1A

4. Certification of funds for this contract will be handled under the procedure approved by the Director of Central Intelligence on 15 December 1956 which, in effect, results in all covert expenses involving issuance of Treasury Checks being accumulated in a separate account within the Finance Division. The amounts in this account will be periodically scheduled for certification of the vouchers by the Director. This procedure eliminates the necessity for a separate certification of authority under Section 8(b) of Public Law 110, 81st Congress, (formerly 10(b) - see 85-507 dtd 7/7/58) for each contract.

5. Concurrence in Amendment No. 10 to Contract No. SC-991 is recommended.

MEMORANDUM FOR: Comptroller, DPD

SUBJECT : Funds for Extension of DPD External Contract

25X1A

1. This memorandum authorizes you to increase you [redacted]
25X1A (SC-991) FY 1961 external research project in the amount of [redacted] for modification of six (6) D-Racks.

2. The expenditures against these funds are chargeable to the Office of Scientific Intelligence Account 1154-1010-6000 (MOR #42).

3. This Office will report the additional obligations on its SOR to the Finance Division.

4. Attached is a requisition to be used by your Division, if necessary. If not required, please destroy and call the undersigned so that our records will reflect a cancellation.

5. If there are any questions or additional information needed, please call Extension 3900.

MEMORANDUM FOR: Chief, DPD/DDP

ATTENTION : Mr. [redacted] - Projects

SUBJECT : D-Rack Modification

25X1A

25X1A

1. Based on telephone conversation between Mr. [redacted] DPD and Mrs [redacted] OSI it was decided that rather than transferring funds from OSI to DPD for modification to six D-Racks attached, the following method will be used:

25X1A

(a) OSI will prepare Form 88, using cost center 1154-1010-6000, MOR#42, in the amount of [redacted] for the referenced modification.

25X1A

(b) DPD will increase a task order which they have with [redacted] C-991) and follow through to see that the billing is paid from OSI funds.

2. Also attached is a requisition to accomplish this transaction.

D-RACK MODIFICATION

It is proposed to realign the D-racks in the following manner.

1. Set the center frequencies of each filter.

2. Adjust the bandwidth of each filter.

3. Optimize the gating and slicing levels associated with each filter.

4. Optimize the slicing level of each slicer unit for maximum recovery of desired signals for normal signal-to-noise ratios found on recordings.

5. Repair any units which are found faulty during realignment procedure.

This process will assure the user that the equipment is operating at its peak of efficiency and permit the optimization of the equipment for use against signals which are commonly found in today's intercept.

This realignment and repair procedure will not change the basic theory of operation of the D-rack in any way.

The center frequencies and associated bandwidths will have to be supplied by the user of the equipment at the time realignment is requested.

The approximate cost for the above outlined realignment and repair
STATINTL is [redacted] for SIX D-racks. The final cost, however, depends
upon the condition of the equipment. This cost does not include the
STATINTL transportation to and from our plant [redacted]
